

# 171021 QUESTIONS DIVI ESTATE

## 1. Sq-M = m<sup>2</sup>

After the last DiviEstate update several translations weren't working. I manually fixed the most but i cant' seem to fix sq-m to m2 anymore. As you can see i've filled in the loco-plugin accordingly but still this isn't working!

## 2. The advanced search engine pop-up

After updating Divi, the advanced search engine pop up doesn't work anymore; It has a dark overlay on top and is not clickable anymore.
